are in heaven, and that
are in earth, visible and
invisible, whether *they*
be thrones, or
dominions, or
principalities, or
powers: **all things were
created by him, and for
him:**

Colossians
1:16

A lit candle is positioned in the upper left corner, casting a warm glow. An open book lies flat in the lower right corner. The background is dark, making the candle and the text stand out.

And he answered and
said unto them, Have
ye not read, that he
which made *them* **at**
the beginning made
them male and female,

Matthew 19:4

A lit candle is positioned in the upper left corner, casting a warm glow. An open book lies flat in the background, its pages visible. The text is overlaid on this scene.

**But from the
beginning of the
creation God
made them male
and female.**

Mark 10:6

A lit candle is visible on the left side of the image, and an open book is visible on the right side. The background is dark and textured.

Wherefore, as **by one man sin** entered into the world, and **death by sin;** and so death passed upon all men, for that all have sinned:

Romans

5:12

A lit candle is positioned on the left side of the image, casting a warm glow. An open book lies flat on a dark, textured surface, with its pages visible. The background is dark, making the candle and the text stand out.

For since **by man**
came death, by man
came also the
resurrection of the
dead. For as **in**
Adam all die, even
so in Christ shall all
be made alive.

1 Corinthians

15:21-22

A lit candle is positioned in the upper left corner, casting a warm glow. An open book lies flat in the background, with its pages visible. The text is overlaid on this scene.

And so it is
written, **The first
man Adam** was
made a living soul;
the last Adam *was
made* a quickening
spirit.

1 Corinthians

15:45

**And Adam lived
an **hundred and
thirty years** and
begat a son... and
called
his name Seth.**

Genesis 5:3

A lit candle in a glass holder is positioned in the upper left corner. An open book with text on its pages is visible in the background, and a smaller open book is in the lower right foreground. The text is overlaid on this scene.

**And Seth
lived an
hundred and
five years and
begat Enos.**

Genesis

**And Enos
lived ninety
years, and
begat
Cainan.**

Years After Creation 0 100 200 300 400 500 600 700 800 900 1000 1100 1200 1300 1400 1500 1600 1700 1800 1900 2000 2100 2200 2300 2400

POINTS TO PONDER:

1. From the information given in Genesis 5 and 11, it is easy to construct a chart like this.

What was it like before the flood? How can a man live to be over 900 years old?

ADAM

SETH

ENOS

CAINAN

MAHALALEEL

NOAH

About 4000 B.C.)

Average age before the flood was 912 years. Today, average age is 79.80

Chart is in seminar notebook or laminated for \$5

Millions of years ago, when much of the world was warm and swampy, strange-looking reptiles called dinosaurs roamed the earth.

Did dinosaurs live millions of years ago?

Millions of years ago, when much of the world was warm and swampy, strange-looking reptiles called dinosaurs roamed the earth.

Have people seen living dinosaurs?

**What was
the original
creation**

like?

**What did
they eat
before the
flood?**

**What will it
be like in
the 1000**

**Where did all
the water
come from to
flood the
entire world?**

**Where did it
go?**

**Were there
really giant
people over
ten feet (3 M)**

**There were
giants in
the earth in
those days;**

**Gen.
6:4**

**Knowing this
first, that there
shall come in the
last days
scoffers, walking
after
their own lusts,
|| Peter 3:3**

**And saying, Where
is the promise of his
coming? For since
the fathers fell
asleep, all things
continue as they
were from the
beginning
of the creation.**

II Peter 3:4

**For this they
willingly are
ignorant** of, that by
the word of God the
heavens were of
old, and the earth
standing **out** of the
Greek, and **in** the
purpose
Peter 3:5

**Whereby the
world that then
was, being
overflowed with
water, perished:**

II Peter 3:6

**But the heavens and
the earth, which are
now, by the same
word are kept
in store, reserved
unto**

**fire against the day
of judgment and**

**II Peter perdition
of ungodly men**

Creationist's Time Line:

The scoffers are **willingly ignorant** of

1. The creation
2. The flood
3. The coming judgement

A close-up photograph of the rear of a white car. The car's taillight is visible at the top. A bumper sticker is affixed to the rear bumper, displaying the text "JESUS IS COMING SOON, AND BOY IS HE MAD!". Below the bumper, two exhaust tips are visible. The background is dark and out of focus.

**JESUS IS COMING SOON,
AND BOY IS HE MAD!**

Creationist's Time Line:

Sadly, many Christians are **ignorant** of:

The creation and the flood

This ignorance has caused them to compromise w/currently "accepted theories" of science.

**In the beginning, God
created the heaven
and the earth. ...v.5**

**And God called the
light Day, and the
darkness he called**

Night. And the

evening and the

morning were **the first**

Genesis

1:1-5

day.

“God called the light Day, and the darkness he called Night. And there was evening and there was morning, one day.

And God called the firmament heaven. And there was evening and there was morning, a second day.”

(KJV) Gen 1:5 And God called the light Day, and the darkness he called Night. And the evening and the morning were the first day.

(NASB) ... And there was evening and there was morning, ONE day.

(NLT) ... Together these made up ONE day.

(AMP) ... And there was evening and there was morning, ONE day.

(RSV) ... And there was evening and there was morning, ONE day.

(ASV) ... And there was evening and there was morning, ONE day.

GAP THEORY

"In the beginning God created the heaven and the earth."

Genesis 1:1

Billions of years

"And the earth was without form and void; and darkness was upon the face of the deep."

Genesis 1:2

“Between the first two verses of Genesis there is ample scope for all the geologic eras.”

**-Explore the Book,
By J. Sidlow Baxter, p. 25**

**“...pre-Adamite
rebellion and
judgment of
Lucifer and
associated
angel-beings...”**

-Explore the Book, by J. Sidlow

**And the earth was
without form, and void;
and darkness was upon
the face of the deep.**

(Heb. Tohu waw bohu= **unformed and unfilled**. It does not mean destroyed)
Tohu is used 20 times in the OT with
10 different meanings. “Ye seek me
in vain [tohu]” Is. 45:19; “He
stretcheth the earth over the empty
place [tohu]” Job 26:7, etc.

Carlton
LAWSON & SONS

**I beheld the
earth, and, lo, it
was **without
form, and void;**
and the heavens,
and they had no
light.**

Jer. 4:23

I beheld the
mountains, and, lo,
they trembled, and the
hills moved lightly. I
beheld, and, lo, there
was **no man**, and all
the **birds** of the
heavens were fled.
This passage has nothing
to do with the creation.

Jer. 4:24-25

**This house is also
unformed
and unfilled but
destroyed.**

For in **six days** the
Lord made heaven
and earth, the sea,
and **all** that in them

**The question is not,
“What does it say?”**

The question is, “Do
you **believe** what it
says?”

Exodus

20:11

and rested **the
seventh day:
wherefore the
LORD blessed
the Sabbath
day, and
hallowed it.**

Exodus

20:11

**It is a sign between
me and the children
of Israel for ever:
for **in six days** the
LORD made heaven
and earth, and on
the seventh day he
rested,**

Exodus

31:17

And on the seventh day God ended his work which he had made; and he rested on the seventh day from all his work which he had made.

Genesis

2:2

**And God blessed
the seventh day, and
sanctified it:
because that in it he
had rested from all
his work which God
created and made.**

Genesis

2-2

**For he spake in a
certain place of
the seventh day
on this wise, And
God did did rest
the seventh day
from all his works.**

Hebrews

4:4

**Wherefore, as by
one man sin
entered into the
world, and death
by sin: and so
death passed upon
all men, for that all
have sinned:**

Romans

5:12

**Nevertheless
death
reigned from
Adam
to Moses,**

Romans

5:14

For since **by man**
came death, by man
came also the
resurrection of the
dead. For as **in**
Adam all die, even
so in Christ shall all
be made alive.

I Cor.

15:21-22

**The last enemy
that shall be
destroyed is
death.**

**(Didn't plants die? Are
plants alive? See video**

I Cor.

#6)

15:26

**And God blessed
them, and God said
unto them, Be
fruitful, and
multiply, and
replenish the earth,
and subdue it:**

WEBSTER'S
21ST CENTURY[™]
DICTIONARY

**“...Be fruitful, and
multiply, and
replenish ()
the earth...”** Genesis
1:28

 **(male) means**
 **fill**
(Shoov)
means do it

**In 1611 the word
“replenish” simply
meant “to fill.” By
1650 a second
definition, “refill” was
added to the
dictionary. For
hundreds of years the
word was used**

REPLEN'ISH, *v. t.* [Norm. *replener*, to fill;
It. *riempire*; L. *re* and *plenus*, full.]

1. To fill; to stock with numbers or abundance. The magazines are *replenished* with corn. The springs are *replenished* with water.

Multiply and *replenish* the earth. Gen. i.

2. To finish; to complete. [*Not in use.*] *Shak.*

REPLEN'ISH, *v. i.* To recover former full-
ness. *Bacon.*

REPLEN'ISHED, *pp.* Filled; abundantly supplied.

REPLEN'ISHING, *pres. part.*

**American Dictionary of the English
Language Noah Webster 1828**

RE-PLĒAD'ING, *ppr* Pleading again.

RE-PLEN'ISH, *v. t.* [Norm. *replener*, to fill; It. *riempire*; L. *re* and *plenus*, full.]

1. To fill; to stock with numbers or abundance.

The magazines are *replenished* with corn; the springs are *replenished* with water.

Multiply and *replenish* the earth. — Gen. i.

2. To finish; to complete. [Not in use.] *Shak.*

RE-PLEN'ISH, *v. i.* To recover former fullness.

Bacon.

RE-PLEN'ISH-ED, (*re-plen'isht*,) *pp.* Filled; abundantly supplied.

RE-PLEN'ISH-ING, *ppr.* Filling; supplying abundance.

RE-PLĒTE', *a.* [L. *repletus*; *re* and *pleo*] Completely filled; full.

AN
AMERICAN DICTIONARY
OF THE
ENGLISH LANGUAGE,

CONTAINING
THE WHOLE VOCABULARY OF THE FIRST EDITION IN TWO VOLUMES QUARVO, AND THE ENTIRE CORRECTIONS AND
IMPROVEMENTS OF THE SECOND EDITION IN TWO VOLUMES ROYAL OCTAVO.

BY
NOAH WEBSTER, LL. D.,

Member of the American Philosophical Society in Philadelphia; Fellow of the American Academy of Arts and Sciences in Massachusetts; Member of the Copenhagen Academy of Arts and Sciences; Fellow of the Royal Society of Northern Antiquaries in Copenhagen; Member of the Connecticut Historical Society; Corresponding Member of the Historical Societies in Massachusetts, New York and Georgia; of the Academy of Medicine in Philadelphia, and of the Columbian Institute in Washington; and Honorary Member of the Michigan Historical Society.

GENERAL SUBJECTS OF THIS WORK.

I.—ETYMOLOGIES OF ENGLISH WORDS, DERIVED FROM AN EXAMINATION AND COMPARISON OF WORDS OF CORRESPONDING MEANINGS IN TWENTY LANGUAGES OF ASIA AND EUROPE.
II.—THE TRUE ORTHOGRAPHY OF WORDS, AS CORRECTED BY THEIR ETYMOLOGIES.
III.—PUNCTUATION EXHIBITED AND MADE OBVIOUS BY THE DIVISION OF WORDS INTO SYLLABLES, BY ACCENTUATION, BY MARKING THE SOUNDS OF THE ACCEPTED VOCALS, WHEN NECESSARY, OR BY GENERAL RULES.
IV.—ACCURATE AND DISCRIMINATING DEFINITIONS, ILLUSTRATED, WHEN DOUBTFUL OR OBSCURE, BY EXAMPLES OF THEIR USE, SELECTED FROM RESPECTABLE AUTHORS, OR BY FAMILIAR PHRASES OF UNDISPUTED AUTHORITY.

REVISED AND ENLARGED,
BY

CHAUNCEY A. GOODRICH,

LATE PROFESSOR IN YALE COLLEGE,

WITH AN APPENDIX OF USEFUL TABLES, DICTIONARY OF SYNONYMS, ETC., ETC.

1801.

AMERICAN MUTUAL LIBRARY ASSOCIATION,
CHICAGO.

Webster's Dictionary 1891.

Re-place' (rê-plās'), *v. t.* To restore to a former place, position, condition, etc.; to repay; to supply an equivalent for, or the want of; to fill the end of. — **Re-place'ment** (-ment), *n.*

Re-plen'ish (rê-plĕn'ish), *v. t.* [REPLENISHED (-plĕn'isht); REPLENISHING.] To fill up again; to fill completely.

Webster's Common School Dictionary 1892.

By 1892 the two
definitions of "fill" had
switched.

re-plen-ish (ri plen'ish) **vt.** || < L *re-*, again + *plenus*, full || 1 to make full or complete again 2 to supply again — **re-plen'ish-ment** *n.*

re-plete (ri plēt') **adj.** || < L *re-*, again + *plere*, to fill || 1 plentifully supplied 2 stuffed; gorged — **re-ple'tion**

1989 only shows one meaning

re·place', *v.t.*, -placed, -placing. 1. put back in place. 2. substitute for. —*re·place'a·ble*, *adj.* —*re·place'ment*, *n.*
re·plēn'ish, *v.t.* make full again. —*re·plen'ish·ment*, *n.*
re·plēte', *adj.* plentifully filled. —*re·ple'tion*, *n.*

**English words
sometimes
change meanings
with time.**

In my days
the
word “cool”
meant word
“hot”
“gay” meant
happy.

A lit candle is positioned in the upper left corner, casting a warm glow. An open book lies flat in the lower right corner. The background is dark, making the candle and book stand out. The text is overlaid on this background.

And ye have respect to
him that weareth **the
gay clothing**, and say
unto him, Sit thou here
in a good place; and
say to the poor, Stand
thou there, or sit
here under my
footstool:

James 2:3

**Now I would not have
you ignorant,
brethren, that
oftentimes I purposed
to come unto you,
(but **was let** hitherto,)**

[God preserved the Bible in English]

**He did not promise to preserve
the English language]**

Romans 1:13

LORD,
thy word is settled in
heaven.

God promised to
preserve His
Word.

He did not
promise to
preserve our
English language

**And God blessed
them, and God said
unto them, Be
fruitful, and
multiply, and
replenish the earth,
and subdue it:**

Genesis

1:28

Thus saith the Lord GOD, Thou sealest
up the sum, full of wisdom, and perfect
in beauty.

13 Thou [Lucifer] hast been in Eden the
garden of God; every precious stone
was thy covering, the sardius, topaz, and the
diamond, the beryl, the onyx, and the jasper, the
sapphire, the emerald, and the carbuncle, and gold: the
workmanship of thy tabrets and of thy pipes was
prepared in thee **in the day that thou wast
created.** Thou *art* the anointed cherub
that covereth; and I have set thee so:
thou wast upon the holy mountain of
God; thou hast walked up and down in
the midst of the stones of fire. **15 Thou
wast perfect in thy ways from the day
that thou wast created, till iniquity was
found in thee.**

Ezek. 28:12-15

**And the LORD God
planted a garden
eastward in Eden;
and there he put
the man whom he
had formed.**

Genesis 2:8 Day

**Thus saith the
LORD GOD;
Because thine
heart is lifted up,
and thou hast
said, **I am a God**, I
sit in the seat of
God**

Ezekiel

28-2

**Behold thou art wiser
than Daniel;... With
thy **wisdom** and with
thine understanding
thou hast gotten
thee riches....**

Ezekiel 28:3-4

**With thy wisdom and
with thine
understanding thou
hast gotten thee
riches ...and thine
heart is lifted up
because of thy riches**

Ezekiel 28:4-5

**Thine heart
was lifted up
because of
thy beauty...**

Ezekiel

28-17

A lit candle is positioned in the upper left corner, casting a warm glow. An open book lies flat in the background, its pages visible. The text is overlaid on this scene.

**Where wast thou
when I laid the
~~foundations of the~~
~~earth? ...~~ and **all**
the sons of God
(angels) shouted
for joy?**

Job 38:4&7

9 And God said, Let the waters under the heaven be gathered together unto one place, and **let the dry land appear:** and it was so. 10 And God called the dry *land* Earth; and the gathering together of the waters called he Seas: 13 And the evening and the morning were **the third day.**
Gen. 1:9-13

**And God saw every
thing that he had
made, and, behold,
it was very good.**

**And the evening
and the morning
were**

the sixth day.

Genesis 1:31

**Aren't
'created' and
'made'
different words
with different
meanings?**

make man in our
image, after our
likeness: So God
created man in his own
image, in the image of
God **created** he him;
male and female
created he them.

earth was
destroyed and
God had to re-
make the

And I saw a new
heaven and a **new**
earth: for the first
heaven and the
first earth were
passed away; and
there was no more
sea.

Revelation

21:1

A lit candle is positioned in the upper left corner, casting a warm glow. An open book lies flat in the background, its pages visible. The text is overlaid on this scene.

But to which of the
angels said he at any
time, Sit on my right
hand, until I make thine
enemies thy footstool?
Are they not all
ministering spirits, sent
forth to minister for
**them who shall be heirs
of salvation?**

Hebrews 1:13-14

A lit candle is positioned in the upper left corner, casting a warm glow. An open book lies flat in the lower right corner. The background is dark, making the candle and book stand out. The text is overlaid on this scene.

And he answered and
said unto them, Have
ye not read, that he
which made *them* **at**
the beginning made
them male and female,

Matthew 19:4

A lit candle is positioned in the upper left corner, casting a warm glow. An open book lies flat in the background, its pages visible. The text is overlaid on this scene.

**But from the
beginning of the
creation God
made them male
and female.**

Mark 10:6

1. **Everything was created** in six days. Ex. 20:11

2. **Satan was created.** Ezek. 28:13, 14

3. Satan was **in Eden** until he sinned. Ezek. 28:14

4. Eden was made on **day 6.** Gen. 2:8

5. Since Angels were created to be **“ministering spirits”** for us (Heb. 1:14 and Mt. 18:10) why would God create them millions of years before man?

6. Satan and the angels rejoiced **when the foundations** of the earth were laid. Job 38:1-4

7. The foundations were laid **on day 3.** Gen. 1:9

8. Everything was **“very good”** at the end of day 6. Gen. 1:31

9. Adam was **130** when Seth was born. Gen. 5:3.

before Seth.

11. The creation of Adam
“the first man” was “the
beginning” Mt 19:4, Mk
10:6, I Cor 15:45.

12. There was no death until
Adam sinned. Gen. 3:6.

Romans 5:8,12,14, I Cor.
15:21

13. Gen. 1:5 was “the first
day.”

ADAM

It was **“very good”**
until man sinned
(up to 100 years
after creation) and
God cursed the

1. Invented 1814 by a Scottish theologian (and Masonic Lodge member) named Thomas Chalmers

-not historical position of church.

-Given more circulation in by George H. Pember in A

-*Earliest Ages.*

-Really took hold in Christ

-circles due to *Scofield*

-*Reference Bible* in 1909.

2. Violates scriptures

Cor. 1:5, 2:2, 3

Problems with the “Gap Theory”

3. Puts **death before
Adam’s sin-**

violates Rom. 5:12, I
Cor. 15:21

4. Has **Satan fall
before day 7-** violates

Questions to ask “Gap Theory” believers:

1. Was there **death
before Adam's sin?**

Rom. 5:12, I Cor. 15:21

2. When did **Satan fall?**

Gen. 1:31; 2:8; Ezek. 28:12-
15

3. Was Satan already the
“god
of this world” (II Cor. 4:5)

4. Thousands of species of living animals are also found as fossils. Did God **recreate these?**

5. When God said everything was “very good” **was Satan evil and were Adam and Eve standing on thousands**

6. Wouldn't Noah's flood have erased all evidence of the "billions of years" taught in the gap theory?

7. What did God mean in Ex. 20:11 and 31:17?

8. Does everyone who reads the Bible need some "guru" to tell them what the Bible

9. Why can the word
“let” (Romans 1:13)
change meanings in
400

years but the word
“replenish” cannot?
10. Why do you need
a gap? **What took
place during this**

**11. Why does
Revelation 21:1 state
that the earth we live
on now is the “first”
earth if it
really is not?**

**12. Was Adam
“the first man” as
I Corinthians 15:45
says?**

If **“without form and void”** in Gen. 1 and Jer. 4, or **“replenish”** from Adam’s and Noah’s time must mean the same thing, does **“Behold, ye despisers, and wonder, and perish: for I work a work in your days, a work which ye shall in no wise believe, though a man declare it unto you.”**

Acts 13:41

(Discussing the resurrection of Christ)

And

“Behold ye among the heathen, and regard, and wonder marvellously: for I will work a work in your days, which ye will not believe, though it be told you.” Habakkuk 1:5

the close and the day
age.

GOD further said, 'I
appear in the expanse
for a division between
the night: and let the

GOD divided the light from the darkness. And to the light GOD gave the name of Day, and to the darkness He gave the name of Night. This was the close and the dawn of the first age.

6 GOD also said, "Let there be an
expanse between the waters, and let
it be a division between the waters
7 and the waters." And GOD made the
expanse, and it divided the waters
which were below the expanse from
the waters which were above the
8 expanse; and that was done. And
GOD named the expanse the Heavens.

This was the close and the dawn of the second age.

9 GOD then commanded "Let the

yielding seed, *and* the **fruit tree** yielding fruit after his kind, ... and God saw that *it was* good. And the evening and the morning were **the third day.**

And God made two **great lights;**
the greater light to rule the day,
... and God saw that *it was* good.

And the evening and the morning were the **fourth day.**
Genesis: 1:11-19

Genesis 1:20 And God said, Let the waters bring forth abundantly **the moving creature** that hath life, **and fowl** that may fly above the earth in the open firmament of heaven. ... 23 And the evening and the morning **Genesis 1:13 plants**

made on the third
Genesis 1:16 sun
made on the fourth
day.

Genesis 1:20 birds and
insects to pollinate
plants made on the
fifth day

**“Probably, so far as I know,
there is **no professor of Hebrew**
of Old Testament at any world-
class university **who does not**
believe that the writer(s) of
Genesis 1-11 intended to convey
to their readers the idea that
creation took place in a series of
six days which were the same as
the days of 24 hours we now
experience...”**

**James Barr, Professor of Hebrew at Vanderbilt
University and former Regis Professor of Hebrew
at Oxford university. Letter to David Watson cited**

Or, to put it negatively, the apologetic arguments which suppose the “**days**” of **creation to be long eras of time**, the figures of years not to be chronological, and the flood to be a merely **local Mesopotamian flood**, are **not taken seriously** by such professors, as far as I know.”

James Barr, Professor of Hebrew at Vanderbilt University
and former Regis Professor of Hebrew at Oxford University

HER'ESY, n. [Gr. to take, to hold; L. haeresis.]

1. A fundamental error in religion, or an error of opinion respecting some fundamental doctrine of religion. But in countries where there is an established church, an opinion is deemed heresy, when it differs from that of the church. The Scriptures being the standard of faith, any opinion that is repugnant to its doctrines, is heresy; but as men differ in the interpretation of Scripture, an opinion deemed heretical by one body of christians, may be deemed orthodox by another. In Scripture and primitive usage, heresy meant merely sect, party, or the doctrines of a sect, as we now use denomination or persuasion, implying no reproach.

2. Heresy, in law, is an offense against christianity, consisting in a denial of some of its essential doctrines, publicly avowed and obstinately maintained.

3. An untenable or unsound opinion or doctrine in politics.

HER'ETIC, n.

1. A person under any religion, but particularly the christian, who holds and teaches opinions repugnant to the established faith, or that which is made the standard of orthodoxy. In strictness, among christians, a person who holds and avows religious opinions contrary to the doctrines of Scripture, the only rule of faith and practice.

2. Any one who maintains erroneous opinions.

HERET'ICAL, a. Containing heresy; contrary to the established faith, or to the true faith. 1828 Webster's Dictionary

Shuttle Creates Clouds that Only Come Out at Night
Space shuttle and other launches may help produce night-shining clouds.
By Matt Quandt

A recently released study by the Naval Research Laboratory has shed some light on the formation of night-shining "noctilucent" clouds. In a paper for the *Geophysical Research Letters*, researchers assert that some of the exhaust released from the main engines of NASA's space shuttles and other launch vehicles eventually become gleaming clouds above the Arctic.

"This study is important because it shows that there is a new source of water ice for the polar upper atmosphere," says lead author Michael Stevens. "Our results indicate that the water vapor released by launch vehicles can end up in the Arctic mesosphere."

Water vapor comprises 97% of a space shuttle's main engine exhaust. As a shuttle shoots through the atmosphere, its trail of steam gathers in the highest layer of Earth's atmosphere, the thermosphere, and drifts toward the north pole. "Drifts" may be the wrong term, however, because Stevens and his colleagues found that this vapor can reach the Arctic in just one day. Such a speedy trip to the north pole is too fast to be carried by atmospheric winds, according to current models. There is currently no conclusive explanation for how the vapor travels so quickly.

As it nears the Arctic, the vapor continues to settle and freezes in the cold (-220°F) air of the mesosphere 51 miles above the Arctic surface, forming distinct ice clouds.

During STS-85 in August 1997, Space Shuttle Discovery astronauts used an instrument called the Middle Atmosphere High Resolution Spectrograph Investigation (MAHRSI) to witness the formation of these brilliant clouds. For eight days, MAHRSI allowed Stevens and other scientists to monitor the plume's journey to the north pole. By the end of the mission scientists had mapped the vapor's trail to the Arctic, witnessed its condensing into ice particles, and finally the evolution into a Noctilucent Cloud. A ground-based experiment in Norway also observed the Arctic-bound water vapor as it passed overhead a day after the STS-85 launch.

"The amount of water found here is tiny compared to the amount in the lower atmosphere," Stevens says. "But the long-term effects in the upper atmosphere have yet to be studied."

New theory: Lack of oxygen, not asteroid, killed dinosaurs

BOSTON (AP) — Dinosaurs weren't done in by a giant asteroid, as one theory holds, but by a change in the atmosphere that meant there wasn't enough oxygen to support their inefficient respiratory systems, a new theory suggests.

A new analysis of air trapped in 120 million-year-old amber found in east-central Minnesota casts doubt on the notion that the dinosaurs starved to death after a giant asteroid hit the planet 65 million years ago, sending up dust that blocked the sun and killed plant life.

Dinosaurs were already on their way out by the time the meteor purportedly hit, says Gary Landis, a U.S. Geological Survey geologist and one of four scientists

presenting their theory at the Geological Society of America's annual meeting today.

"The dinosaurs did not keel over with their feet up in the air, but they found it increasingly difficult to compete in their environment."

The theory also carries implications for humans because it presumes that worldwide atmospheric changes can occur 10 to 20 times faster than previously thought, the researchers said.

Landis and his colleagues tested air found trapped in the amber in east-central Minnesota. They found that the proportion of oxygen in the atmosphere fell from a high of 35 percent to a low of 28 percent within the relatively short time of between 300,000 and 500,000 years.

"It would be like taking a dinosaur for a stroll from sea level up to 6,000 to 7,000 feet," Landis said.

The oxygen-rich air resulted from volcanic activity that pumped out carbon dioxide, which was converted into oxygen by plants.

Dinosaurs evolved during this time, when oxygen was plentiful, and had a weak respiratory system, according to the theory known as the Pele Hypothesis. Pele is a Polynesian goddess of volcanoes.

An 80-foot-long apatosaurus, also known as a brontosaurus, had a set of nostrils about the same size as a horse's, for example, said Richard A. Hengst, a Purdue University physiologist.

"There were some serious problems with trying to get air into

that animal," Hengst said. "Dinosaurs could not have existed without having more oxygen in the air to start with."

The scientists said that smaller cold-blooded animals around at the time, such as snakes, lizards and turtles, were able to survive because of their relatively modest oxygen needs. So did some of the smaller mammals with more efficient respiratory systems, the scientists said.

About two-thirds of known species of dinosaurs were gone by the time the asteroid is believed to have fallen in what is now Mexico's Yucatan Peninsula, researchers believe.

"They were basically all gone, fully extinct" by then, Landis said. "It was a gradual extinction."

International Falls, Minnesota News

Putting on Ancient Airs

Dinosaurs, it seems, may have breathed easier than we do. Indeed, at a meeting of the Geological Society of America in Phoenix last week, two scientists stunned colleagues by reporting that 80 million years ago, the earth's atmosphere contained about **50% more oxygen than it does now.**

Geochemists Gary Landis of the U.S. Geological Survey and Robert Berner of Yale reached their startling conclusion after **analyzing tiny air bubbles trapped in bits of amber,** the aged and solidified resin of coniferous trees. They

placed the amber inside a vacuum chamber, then cracked it to let the ancient air escape.

They found that it was 32% oxygen, compared with 21% in the modern atmosphere.

If the findings are accurate, ideas about atmospheric evolution might have to be revised. The two admit the results "are still very preliminary," but they insist the method is sound.

Berner quickly dismisses speculation that a change

in the oxygen supply had anything to do with the extinction of dinosaurs. "It was a very slow change, over millions of years," he observes. "And most organisms easily adapt." Next comes testing bubbles in 300 million-year-old amber.

TOM STORY

Bubble-bearing amber

“The only trend in the recent literature is the suggestion of far more oxygen in the early atmosphere than anyone imagined.”

Center to treat dive victims

Hyperbaric chamber to be ready in March

By Linda Zettler
News Journal staff writer

At first it just felt as if his arm was asleep — the same sensation you get when you sleep on your arm and then try to abruptly swat a shrilling alarm clock.

The numbness crept through other parts of diver Ronny Carr's body — eventually paralyzing his arms and legs — after his second dive on Father's Day, 1995. About 15 minutes after surfacing, he and his diving buddy radioed the Coast Guard to get the hyperbaric chamber at Pensacola Naval Air Station ready to treat his oncoming decompression sickness.

But Carr said it took about two hours and three tries for emergency workers to find a chamber that was available and could treat him. NAS was standing by, but miscommunication caused the emergency crew to fly him first toward Mobile, then turn around and head for the chamber in Panama City.

Carr, a 37-year-old Pensacola resident, has good reason to be interested in the opening of a large hyperbaric center in Pen-

What we're getting

Hyperbaric therapy helps young cerebral palsy patients

By Carolyn Poirot

Fort Worth Star-Telegram

FORT WORTH, Texas — When he started hyperbaric oxygen therapy last February, Kenton Morgan's leg muscles had become so constricted, his knees clamped together and his lower legs scissored. He could no longer straddle a horse.

For the 13-year-old with cerebral palsy, that was tragic.

Kenton, who lives in the Fort Worth suburb of Burleson, loves therapeutic riding. It's his main social activity. His mother says he talks nonstop to the three helpers who lead and walk alongside the horse he's riding.

"I do love horses," Kenton says. "I got thrown off a horse once. It was scary — for Mom. — My side walker caught me."

Kenton's orthopedic surgeon recommended muscle-release surgery to correct the problem but warned the procedure might have to be repeated as Kenton grows.

His father, Ken Morgan, got on the Internet and says he made "about a jillion phone calls," seeking alternatives. He found an experimental hyperbaric oxygen treatment program for cerebral palsy at the University of Texas Medical Branch at Galveston.

Breathing pure oxygen under increased pressure allows blood vessels to carry more oxygen deeper into tissue throughout the body, including the brain. The capillaries diffuse blood farther (into tissue) under pressure, so oxygen-rich blood is carried into areas it can't reach under normal pressure.

Hyperbaric oxygen is most often used to treat carbon monoxide poisoning and for hard-to-heal wounds such as crush in-

Photo by Carolyn Bauman / Fort Worth Star-Telegram

Rory Bachman, of Keller, Texas, holds his son Jack Bauman, 4, who has cerebral palsy, as a technician puts an oxygen hood on Jack during an orientation of the hyperbaric chamber at the Jennings Outpatient Pavilion of the Osteopathic Medical Center of Texas in Fort Worth. About 20 children with cerebral palsy went through orientation before beginning a new study to treat cerebral palsy in the hyperbaric oxygen chamber. The headphones are hooked up to a TV that is mounted outside the windows so the patients are entertained during their hour-long treatments.

"Patients who got extra oxygen were half as likely to be nauseated after surgery."

In surgeries

Oxygen halves infection

Higher dosage - 80 percent - makes difference

By Janet McConnaughey
Associated Press Writer

Researchers may have found a true ounce of prevention, reporting today that a few pennies' worth of oxygen can cut the risk of surgical infections in half — saving thousands could be saved in medical bills.

Air is about 21 percent oxygen. But patients routinely get 30 percent oxygen during and after surgery, because lungs don't work well under anesthesia. The study tested whether a richer mixture would improve the outcome.

Boosting the oxygen level to 80 percent made a big difference. Twenty-eight of 250 patients on the standard mix developed infections, compared with only 13 out of 250 who got extra oxygen.

The study was published in today's

New England Journal of Medicine and was led by Dr. Daniel Sessler of the University of California at San Francisco.

The study is significant because it shows an easy, inexpensive way to make a big cut in medical bills, said Dr. Avery Tung, an assistant professor of anesthesia at the University of Chicago's medical school.

According to another study, post-operative infections add an average of \$12,500 to the cost of cancer surgery. The only cost to the richer-oxygen treatment is about three cents' worth of oxygen.

"It's just a matter of setting two knobs in different positions. Both knobs need to be set anyway, and you just turn them a little more to get more oxygen," Sessler said.

Doctors have worried that extra oxygen might make the lungs more likely to collapse. However, he said, a study of his last year in the journal *Anesthesiology* found no difference in the percentage of such complications on high and normal doses of oxygen.

There was also an unexpected benefit — patients who got extra oxygen were half as likely to be nauseated after surgery.

The study was conducted at the

Donauspital in Vienna, Vienna General Hospital and University Hospital Eppendorf in Hamburg, Germany.

Scientists already knew that the white blood cells known as neutrophils use oxygen to kill germs. And they knew that high levels of oxygen in body tissues help prevent infection and that breathing higher levels of oxygen put more oxygen into the tissues. What they did not know was whether it made a difference in patients' healing.

"This shows it's not just a theoretical benefit but a real benefit, and that it's much greater than you might have expected," Sessler said. "It's an enormous benefit for no cost and effort and risk."

The study looked at bowel surgery patients because they have the highest risk of infection. The findings might have even greater implications for burn units, since infections cause most deaths there, said Tung, head of his hospital's burn unit.

"If I had a wish list of another study I'd like to see, I'd like to see the effect of this on preventing infections other than wound infections," he said. "Or whether oxygen therapy might be used to speed healing" of other infections.

MIND & BODY

Chamber of Hope

Hyperbaric device aids children

BY MICHAEL RISNIT
GANNETT NEWS SERVICE

In 1996, Dr. Josephine Feingold's daughter, Elisa, was diagnosed with cerebral palsy. After a series of treatments in a hyperbaric oxygen chamber, the 5-year-old showed better concentration and began to talk.

To continue Elisa's therapy, Feingold mortgaged her home and started her practice, Hudson Valley Hyperbarics, 19 months ago in Southeast, N.Y.

Treating those afflicted by autism or cerebral palsy is a non-traditional use of HBOT, a medical treatment that increases the body's healing process by increasing oxygen levels. The non-traditional applications are not government approved and insurance companies won't cover the cost. Hospitals with chambers — about 400 in the United States — treat only approved afflictions, most dealing with traumatic flesh injuries, sending those seeking alternative therapies to practices like Feingold's.

Questions about its effectiveness and the expense — \$200 for each 90-minute stay in the machine — haven't deterred Feingold's patients or dampened the relief of their caregivers. Most come for 10

Hyperbaric therapy's use as healing tool grows

Tracy Wheeler

Knight Ridder

Pity the hyperbaric chamber.

Its image has been hijacked by dubious promises, monstrous failures and bizarre tales in supermarket tabloids, blocking out its ever-growing legitimacy in healing wounds and knocking back infections.

Its questionable reputation hit its peak in the 1920s with the grand hype surrounding the Timken Tank — a gigantic steel ball five stories tall and 64 feet across built next to the old Cunningham Sanitarium in Cleveland, Ohio. Bankrolled by a \$1 million investment from ball-bearing magnate H.H. Timken, it was billed as the world's largest hyperbaric chamber and promised to alleviate cancers, diabetes, anemia and other diseases.

The medical community scoffed. The claims were bogus, it said. Science eventually bore that out. When the Monster Steel Ball — as it was also known — was finally dismantled in the early 1940s and its steel was donated to the war effort, the American Medical Association celebrated with an editorial titled "Useless Tank to Become Useful Tanks."

For the next few decades, hyperbaric therapy hid in the confines of the Navy before its strange history was updated with bizarre new twists, starting in the 1980s with stories (since proven inaccurate) about Michael Jackson using a hyperbaric chamber as his bed. In the 1990s, TV and movie stars touted chambers as a modern day fountain of youth. Now some professional athletes use hyperbaric chambers in their search for any competitive edge.

Lost in all this, though, is the fact that hyperbaric chambers offer a very real medical purpose — healing diabetic wounds; treating carbon monoxide and cyanide poisonings; repairing tissue damage left behind from radiation treatments; healing some infections caused by fungi and flesh-eating bacteria; helping skin grafts take hold; and fixing diving sickness.

Each of these conditions often can be turned around by an infusion of oxygen into the bloodstream, which is what hyperbaric therapy does. Lying inside a pressurized acrylic tube, patients breathe 100 percent oxygen. The air we normally breathe is about 21 percent oxygen.

Inside the tube, pressure slowly increases to two- to three-times our usual atmosphere. That increased pressure pushes the oxygen across the lungs differently, more effectively, putting 200 times more oxygen into the blood plasma. More oxygen in the plasma means more oxygen going to tissues, which in turn means faster healing.

In cases of radiation damage and chronically hard-to-heal wounds, tissue is damaged by a severe lack of oxygen, caused by a lack of blood flow.

"It's a dormant or hibernating area of tissue," said Dr. Jeffrey Welko, director of Akron (Ohio) General Medical Center's hyperbaric therapy program. "It gets just enough oxygen to stay alive, but not enough to help. It doesn't have the ability to bring in what's needed for repair. The extra oxygen helps regenerate blood vessels and restore blood flow and oxygen to the tissue."

Treatments usually last about two hours, and are only an auxil-

Knight Ridder

Dr. Jeffrey Welko stands next to the hyperbaric oxygen chamber at Akron (Ohio) General Medical Center. The chamber is used to treat diseases and ailments caused by carbon monoxide poisoning, flesh-eating bacteria, radiation damage from cancer treatments and the bends from diving.

iary treatment. Hyperbaric oxygen therapy does not replace other treatments. It is not a cure-all.

"Once we introduce (patients) to the idea of hyperbaric oxygen, I think some people have the misconception that it's going to cure them or it's some miracle procedure that will heal them. 'Oh, I'm doing HBO, I'm saved,'" said Dr. Michael Parker, director of Akron General's wound center, which often refers people to hyperbaric

therapy. "It's just one tool in a whole host of tools."

Ask Lori Sari or Sandy Gallimore about hyperbaric oxygen therapy and there are no strange stories. Just stories of healing and living.

Sari believes that the therapy — along with a quick diagnosis from a doctor at Parma (Ohio) Community Hospital — saved her life.

On a Saturday last April, Sari's feet took on the pins-and-needles feeling you get when your foot's

"asleep." But then her lower leg turned "tomato soup red" with stripes of red running up her leg. In the emergency room, she was quickly diagnosed with the streptococcus version of necrotizing fasciitis, also known as flesh-eating bacteria.

Twenty minutes later, the infection had spread above her knee and she was losing consciousness. She was rushed into surgery and her leg was amputated about six

inches below her hip.

The infection, though, often leaves toxins in the blood system. Sari was showing signs that the toxin was still strong. As her breathing became labored, she was put on a ventilator. Her kidneys began to shut down.

She was rushed by ambulance from Parma to Akron General. She had three hyperbaric treatments in the first 24 hours, seven total. Two weeks later, she was able to check out of the hospital.

Without the hyperbaric therapy, she said, "I would've died, because was pretty close. At least, I had a chance with this. I was very critical."

For Gallimore, it wasn't a life-saving therapy, simply a quality-of-life saving therapy.

Eleven years ago, at the age of 4, Gallimore was diagnosed with squamous cell carcinoma in his neck and tonsils. After surgery, he endured 40 radiation treatments.

Radiation, when applied to the head or neck, has a damaging effect on the jaw and teeth, turning them brittle.

"They broke like crazy," Gallimore said. "I still have 15 root canals and crowns." One tooth, Sari said, was "literally flaking apart and had to be removed."

Her oral surgeon, though, would not pull the tooth without Gallimore having hyperbaric therapy.

After 30 treatments, her surgery went fine. The side effects were even better.

"My skin got real clear. Because of radiation, my neck was like leather and it's not anymore."

"Gosh, I wouldn't mind having one of those in my house," she said with a laugh.

“The discovery of thousands of well-preserved leaves in Antarctica has sparked a debate among geologists over whether the polar region, rather than being blanketed by a massive sheet of ice for millions of years enjoyed a near-temperate climate as recently as three million years ago.”

“In January, Mr. Webb-with David Harwood, an assistant professor of geology at the University of Nebraska at Lincoln, and Barrie McKelvey, a professor of geology at the University of New England in Australia-found the deposit of leaves on the side of a cliff in a desolate stretch of the Transantarctic Mountains, about 250 miles (400 KM) from the South Pole.”

Adam and that 'missing' rib

Carl Wieland

A HEAD-ON IMPACT WITH a fully laden fuel tanker at highway speeds! is an experience I would hope for none to share. The surprise was to have survived it — God clearly had other plans for me.¹

During the 5 ½ months in hospital, and for years afterwards, I had a series of operations to reconstruct various parts of me, particularly the bones of my face.²

These operations often required using my own bone for grafting. I noticed that the plastic surgeon would keep going back to the right side of my ribcage, through the same horizontal scar, actually, to get more bone for these procedures. One day, I asked him why he hadn't 'run out of bone'. He looked at me blankly, and then explained that he and his team took the whole rib out, each time. 'We leave the periosteum intact, so the rib usually just grows right back again'.

Despite having trained and practised as a family doctor, I was intrigued; I had never realised this before. The *periosteum* (the literal meaning of this word is 'around the bone') is a membrane that covers every bone — it's the reason you can get things stuck between your teeth while gnawing on a leg of lamb, for instance. The periosteum contains cells that can manufacture new bone. Particularly in young people, 'rib periosteum has a remarkable ability to regenerate bone, perhaps more so than any other bone'.⁴

Thoracic (chest) surgeons routinely remove ribs, and these often grow back, in whole or in part. A lot depends on the care with which the rib is removed; it needs to be 'peeled' out of its periosteum to leave this membrane as intact as possible. A major reason why the rib is

8-foot-4 giant still growing

Childhood surgery spurred growth

By Anna Melnichuk
The Associated Press

PODOLIANTSI, Ukraine

His extraordinary height trapped Leonid Stadnik in a tiny Ukrainian village for years, but now the 8-foot-4 man is seeing his horizons expand to match his size.

Until this spring, the 33-year-old Stadnik had spent almost all his days here in a poor village in northwestern Ukraine.

As he grew, his life seemed to be shrinking. He had to stop working as a veterinarian on a cattle farm three years ago after his feet were frostbitten because he couldn't afford proper shoes.

Then journalists found out about him and one of the stories caught the notice of a German who claimed to be a distant relative and invited him for a visit.

The trip to the relative's home in southwestern Germany took a grueling 25 hours and, once there, Stadnik had to sleep on a billiard table. But, Stadnik says, it

was worth every discomfort.

He got to sample frog legs in an elegant restaurant. He saw a roller coaster in an amusement park. "I saw so much in that month, as never before in my life," he says.

Stadnik, whose growth spurt started at age 14 after a brain operation apparently stimulated his pituitary gland, is still growing. There's no indication yet whether he might top the 8-foot-11 reached by Robert Wadlow of Alton, Ill., the tallest man known in history who died in 1940.

Finally becoming homesick, he decided to come back to help his mother, Halyna, with the summer routine of country life.

"It's wrong to be idle while my loved ones are working so hard," Stadnik says, even though he suffers from constant knee pain from carrying around his 440-pound bulk.

When Stadnik got back, he found a new pair of athletic shoes that actually fit. They were sent by Jason Neswick, a New Yorker who had read of Stadnik's plight.

"It is said that we live in such an age with advanced technology, medicine and breakthroughs, yet fall short of helping someone with no apparent reason for suffering ...," Neswick wrote.

Maximinus was probably the biggest man ever to hold the office of Roman emperor. The *Historia Augusta* has it that he was 8 ft 6 in (2.6 m) tall, and so strong that he could pull laden carts unaided! The size of his footwear was also legendary, and the expression 'Maximinus's boot' came to be used in popular parlance for any tall or lanky individual. Surviving portrait busts, such as this one from the Louvre, show Maximinus as a heavily-muscled man with powerful jaw and close-cropped hair, the image of a seasoned soldier. Not for him the meditative, spiritual pose favoured by Alexander Severus.

country, and how they had settled themselves there; how it came that, notwithstanding their vicinity to the Mexicans [Aztecs], they resembled each other so little, and lived in perpetual warfare with each other. The tradition was also handed down from their forefathers, that in ancient times there lived here **a race of men and women who were of immense stature with heavy bones**, and were a very bad and evil-disposed people, whom they had for the greater part exterminated by continual war, and the few that were left gradually died away.

frame of this people, they dragged forth a bone, or rather a thigh bone, of one of those giants, which was very strong, and measured the length of a man of good stature. This bone was still entire from the knee to the hip joint. I measured it by my own person, and found it to be of my own length, although I am a man of considerable height. They showed us many similar pieces of bones, but they were all worm-eaten and decayed; we, however, did not doubt for an instant, that this country was once inhabited by giants. Cortes observed, that we ought to forward these bones to his majesty in Spain by the very first opportunity."

The Monster Stones of Baalbek

Near the modern Lebanese city of Baalbek—a place the Greeks and Romans called Heliopolis, or City of the Sun—there once ran an ancient trade route linking Damascus and Tyre. At this site, Roman engineers in the first century AD raised a spectacular temple complex that seemed designed to dazzle passing caravans with the empire's power and splendor. The complex was

dominated by the magnificent Temple of Jupiter, a stone colossus surrounded by a forest of fifty-four columns of immense size and height. Beneath the temple lay an even greater wonder: a huge foundation called the Grand Terrace, comprising an area of more than five million square feet and containing more stone—all precisely cut and fitted—than the Great

Many cultures manufacture objects that have unknown uses. Some of these objects are so big and bulky (or tiny) that they have only symbolic meaning and defy determination of manufacture. How could the ancient Egyptians make the great pyramid or the early Brits erect the monoliths of Stonehenge using their primitive technology? American Indians had their own "objects" and one of these will be the topic of this paper.

Most prehistoric Indians, especially in the mid-western U.S. and Canada, used naturally occurring "float" copper to manufacture tools, ornaments and weapons. Tens of thousands of small "old copper" artifacts have been found over the years. These have weighed usually a few hundred grams with exceptionally rare pieces weighing in the 1 to 2 kg. range.

In 1893, as part of the Columbian Exposition, a large celt (axe) head was displayed at what is now Chicago's Field Museum. It was made of solid copper and weighed 17.7 kg. (39 pounds). The object was 61 cm. long, 13 cm. wide and varied from 2 to 4.5 cm. in thickness. It was found in a Hopewell Indian mound (500 B.C.

Above: Examples of typically small "old copper" artifacts, circa 200 BC to 500 AD. Photo ©, author. **Below center:** 61 cm long celt, 13 cm wide and 4.5 cm thick, unearthed while excavating the Seip Mound, in Ross county, Ohio. to 500 A.D.) located in Seip Mound, Ross County, Ohio. This was the largest copper artifact ever recorded.

The purpose of the celt is unknown. It is too heavy for a man to handle efficiently and when hafted (connected to a wooden handle) in a variety of ways, remains non-functional. Its shape, similar to smaller copper celt heads, was seen and used as chisels and axes. But the artifact was too heavy and thick for such a purpose. If used as a large "hammer," it could have pounded large stones, stakes, etc. But the Hopewell Indians did not use large stakes, stones or other objects, which would require such a large tool. There seems to be no apparent reason for it.

The celt's surface was corroded and covered with a solid, blue-green-brownish patina (two mounting rods were welded on to the celt in the 1893 exhibit). This patina is typical of other Hopewell copper artifacts, and bespeaks its great antiquity. It indi-

P.O. 559.**

An Egyptian construction crew ran into a burial ground and found several burials of giant humans. Some 16 feet tall!

I was asked to sculpt a model based on one femur. This size femur would have belonged to a man 16 ft. tall.

The bible tells of giants, before and after *The Flood*.

Goliath was 9 ft. His king Og was 12-18 ft.

Giants have been found in Texas, Arizona, Ohio, Europe and the Bible Lands.

There are giant bones in rock supposed to be hundreds of millions of years old.

47 inch Human Femur

In the late 1950s, during road construction in south-east Turkey in the Euphrates Valley, many tombs containing the remains of Giants were uncovered.

At two sites the leg bones were measured to be about 120 cms "47.24 inches".

Joe Taylor, Director of the Mt. BLANCO FOSSIL MUSEUM in Crosbyton, Texas, was commissioned to sculpt this anatomically correct, and to scale, human femur.

This "Giant" stood some 14-16 feet tall, and had 20-22 inch long feet. His or Her finger tips, with arms to their sides, would be about 6 feet above the ground.

The Biblical record, in Deuteronomy 3:11 states that the Iron Bed of Og, King of Bashan was 9 cubits by 4 cubits or approximately 14 feet long by 6 feet wide!

Race of Giants Lived Here

Skeletons of Mammoth Human Race Unearthed in the County. Found in Big Mound

Near the outlet of Lake Noquebay, in NE Wisconsin, mounds were found containing hundreds of skeletons. “One skull found was about three times the size of the ordinary human and other bones were correspondingly big.”

The Index Wausauke, Wisconsin Friday October 14, 1904

Vol 11. No.9 (Mounds are a few feet under water now in the lake in front of Ahle's Resort 1-715-854-2171)
